Allowable Subject Matter

1. After a further search and a thorough examination of the present application and in light of the Applicant's arguments and in light of the prior art made of record, claims 1-27 are found to be in condition for allowance.

Reasons for Allowance

2. The following is an Examiner's statement of reasons for the indication of allowable subject matter:

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose a method for holding an object of interest in a field of view of a movable video camera comprising the step of receiving an indication of the object of interest, predicting a future position of the object of interest based on a current position and movement parameters of the object of interest, determining a future position of the movable camera based on said future position of the object of interest, said future position of the movable camera having the object of interest in the field of view, and generating movement signals for the movable camera based on a difference between a current position of the movable camera and said future position of the movable camera.

It is noted that the closest prior art of record (Bianchi US Patent no. 5,434,617) teaches a similar method for holding an object of interest in a field of view of a video camera, however, Mimura et al. fails to particularly teach or suggest "*predicting a future*

position of the object of interest based on a current position and movement parameters of the object of interest, determining a future position of the movable camera based on said future position of the object of interest, said future position of the movable camera having the object of interest in the field of view, and generating movement signals for the movable camera based on a difference between a current position of the movable camera and said future position of the movable camera." as specified in the claims.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance".
